

FIELD TRIP DAY · GRADES K-12

FIRST® Chesapeake District Robotics Championship

60 high school robotics teams. One day built for your students.

Friday, April 9, 2027 The Show Place Arena · 14900 Pennsylvania Ave, Upper Marlboro, MD 20772

WHAT YOUR STUDENTS WILL DO

A student ambassador from a competing team guides your group through the pits, live matches, and team conversations, about 45 minutes in all, sized to your class. Students see real engineering up close, watch robots the students built compete live, and talk with the people who built them.

1 • The Pits

Where robots get built and repaired between matches.

2 • Competition Floor

Live matches. The first 15 seconds run on student-written code.

3 • Mobile STEM Lab • Gr. 6-12

Learning Undeclared's Environmental Mission: a 15-20 minute AR challenge, 12 students per session. Book it with your tour window.

4 • Meet the Teams

Students ask team members what comes next after high school.

For teachers: a Field Trip Learning Guide with NGSS, CSTA and Common Core connections (plus a Virginia SOL crosswalk), pre-visit prompts, and reflection questions for the bus ride home.

AT A GLANCE

Cost Free admission, free bus parking, dedicated bus drop-off

Windows Morning (practice) and afternoon (qualification matches). Times confirmed in January.

Safety Safety glasses provided. Fully accessible venue.

Lunch Concessions on site; space for bag lunches

Groups Any size, K-12, including CTSO chapters (TSA, DECA, FBLA).
